installation guide	1
what is included	3
transmitter configurations	3
transmitter functions	4
standard configuration for 5-button Radar 2 transmitter	4
standard configuration for 4-button OEM transmitter	5
primary harness wire connection guide	7
primary harness wiring diagram	7
primary harness wiring guide	8
pigtail harness wire connection guide (h3 and h4)	11
h3 connector (male)	11
h4 connector (female)	12
door lock harness wire connection guide (h5)	13
type A: positive (+) 12-volt pulse	13
type B: negative (-) pulse	14
type C: reversing polarity	15
type D: after-market actuators	16
type E: mercedes-benz and audi (1985 & newer)	17
type F: one-wire system	18
type G: positive (+) multiplex	19
type H: negative (-) multiplex	20
515U self-powered smartsiren	21
siren installation instructions	21
passenger compartment	22
mounting the control unit	22
mounting the receiver/antenna	22
peripheral plug-in harnesses/sensors	23
super bright blue led, 2-pin white plug	23
plain-view valet switch, 2-pin blue plug	23
multiplex (MUX) sensor 'T' harness, 4-pin connector	23
tilt/motion sensor	26
glass tamper sensor	26
remote adjustable proximity sensor	26
ultrasonic sensor	27
omnisensor	27
arming/disarming diagnostics	28
arming	28
disarming	28
system status chirps	28
remote siren silencing	29
multiple event total recall	29
table of zones	30
system features programming	30
cliffnet wizard pro installation software programming	30
manual programming instructions	31
user selectable features	32
installer selectable features	36
programming notes	39
smart power up II	41
remote control sensor disable	41
mux (multiplex) sensors	42
adjusting the 506T glass tamper sensor	42
adjusting and testing the 509U ultrasonic sensor	42
adjusting the tilt/motion sensor	42
adjusting the proximity sensor	43
adjusting the omnisensor	45
second unlock feature	46
auto-immobilisation feature	46
auto-immobilisation sequence	46
